## About Me

---

I'm a BTech CSE (AI & ML) student and a dedicated learner with a strong interest in technology and problem-solving. I enjoy exploring how modern tools, AI concepts, and creative ideas can solve real-world challenges and help me grow professionally. My focus is on continuously improving my skills, learning new technologies, and taking on challenges that strengthen my technical and analytical abilities.

Outside academics, I enjoy reading books, which helps me stay curious, broaden my perspective, and keep learning beyond the classroom.
